**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically as to claims 1 and 8, it is unclear whether applicant intends to claim a method or an apparatus as the preamble is directed to a system, which may be interpreted as either. Applicant should correct.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Bednar et al. (EP 0745947 A2).

Specifically as to claim 1, Bednar et al. disclose an electronic bill presentment and payment system comprising a database capable of storing data relating to a plurality of bills sourced from a plurality of billers, and corresponding to a plurality of consumers, processing capacity coupled to said database capable of converting data from said plurality of billers into

Art Unit: 3624

format compatible with said database, processing capacity coupled to said database capable of allowing at least some of said plurality of billers to review and obtain reports in real time from data relating to said billers and status of said biller's bills stored in said database, the database inaccessible to any entity not having encrypted access to said database, processing capacity coupled to said database capable of supporting a plurality of visual interfaces, each supported by a site different from other of said visual interfaces, each of said visual interfaces capable of allowing a consumer to review and pay said consumer's bills and thereby change information in said database only if said consumer has been authorized access to the database by a credit verifier (see Bednar et al. columns 3-5 and figures 8-9).

Specifically as to claims 2-6, see above rejection for claim 1.

Specifically as to claim 8, an electronic billing presentment system comprising receiving from said consumer, via said visual interface, logon information, initiating an interactive session with a credit verifier to obtain authorization for said consumer to have access to information from said database, after said authorization from said credit verifier has been received from said credit verifier, allowing said consumer to access information in said database in order to pay bills (see above rejection for claim 1).

Specifically as to claims 9-20, see above rejections.

### ***Response to Arguments***

Applicant's amendment has overcome the Objection to the Specification and the Objection to the Oath/Declaration.

Art Unit: 3624

With regards to the 35 USC 112 second paragraph rejection, it remains unclear, based on the preambles of the above cited claims, whether the claims are directed to an apparatus or a method.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., the use of a bill presentment and payment engine which may be used with any of a wide variety of different, hitherto *incompatible*, bill presentment and payment portals) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
